UNICC Learning Services Offering

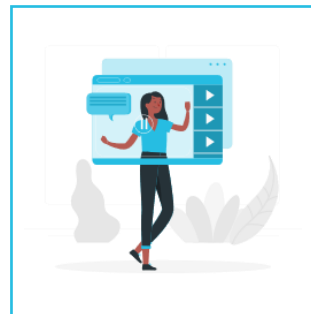

UNICC provides an array of bundled services for solutions that best fit Client needs, from strategic planning to administrative tasks

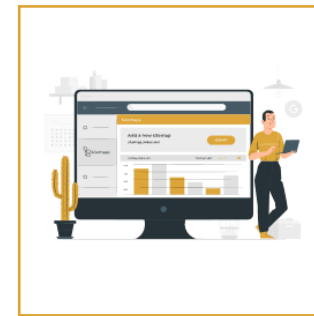

Learning Consultancy and Management

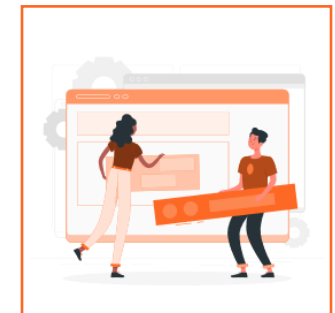

Learning Sourcing and Administration

Shared and Tailor-made Training Service

Development and Administration of LMS

eLearning Content Development

The header features a dark blue background on the left with a series of colorful, overlapping lines in shades of red, orange, yellow, green, and blue. To the right of this is a horizontal bar composed of several colored rectangular segments in the same color palette.

Shared Learning Services

The **UNICC Learning Catalog** offers a wide range of ICT learning and training solutions at discounted rates through specialized IT training providers or UNICC internal Subject Matter Experts.

The courses can be offered either as dedicated classes or shared among multiple interested partners, through a mechanism of cost-sharing.

Any of the courses may be delivered in self-paced or virtual format. They may also be organized as classroom-based in any customer's location, subject to the minimum number of participants. Generally, minimum number of participants may vary from 3 to 5, maximum number may vary from 12 to 20, depending on the nature and cost of the training.

All courses planned or in the pipeline will be periodically broadcasted through the **LevelUP Digital Learning Newsletter**.

To register for a course, to request additional information (course fees, course descriptions, delivery format), or for any requirement not listed in the catalog, please contact the UNICC Learning Services Group at icttraining@unicc.org.

BUSINESS MANAGEMENT

Course	Days	Brand	Exam
<u>Becoming a Value-Focused Organization</u>	1	BRM Institute	yes
<u>Business Relationship Management (BRM) Executive Brief</u>	half-day or 1	BRM Institute	no

Tailor-made Services

UNICC Tailor-made Courses

The courses mentioned in this section are delivered by UNICC subject matter experts, who can easily customize the content based on your organization needs. These courses may be organized upon request in virtual format.

For any additional requirement not listed in this catalogue, please feel free to contact the **UNICC Learning Services Group** at icttraining@unicc.org.

CompTIA Technical Trainer

Duration: 3 to 5 Days, depending on the number of participants

Audience: Course aimed at trainers who want to enhance their knowledge and skills on the tools and techniques necessary for successfully teaching technical content.

Prerequisites: Preliminary experience in the delivery of technical courses would be desirable.

Optional: Upon request, the participants may take the official CompTIA CTT+ Certification exam.

Prerequisites: Preliminary experience in the delivery of technical courses would be desirable.

Topics Covered:

The content of the course is built around the official CompTIA CTT+ certification course and will be delivered by the UNICC CompTIA CTT+ certified instructors.

- Review organizational needs and student backgrounds to plan course curriculum and objectives.
- Select and implement the appropriate teaching methods for classroom and virtual courses.
- Utilize activities that allow learners to contribute to the discussion at appropriate intervals.
- Use instructional media such as graphic displays and handouts to enrich and engage students.
- Present and conduct themselves in a way that is acceptable to corporate clients and learners.
- Understand and employ effective verbal and non-verbal communication and presentation skills.
- Utilize group dynamics and group facilitation to establish a learner-centered environment.
- Establish an environment free of bias and criticism, promoting participation of all learners.
- Monitor learner progress during training and assess performance at the close of instruction.

Analysing and Visualizing Data in Power BI

Level: 1 (Basic) | **Duration:** 3 Days

Audience: Course aimed at Users who need to extract, transform, model and visualise data in Power BI

Applications: Microsoft Power BI

Prerequisites: Working knowledge of Microsoft Excel is beneficial and Completion of following online training (Lynda.com)

- Power-BI-Essential-Training
- Power-BI-Pro-Essential-Training

Final Assessment at the end of the course

Topics Covered:

- Overview of BI & Power BI Reporting
- Transforming data in Microsoft Power BI
- Modelling data in Power Query
- Visualizing data in Microsoft Power BI
